CAMPAIGN AGAINST NESTLÉ

BABY MILK ACTION

- **Reversing the decline in breastfeeding could save the lives of 1.5 million infants every year.**
- **Where water is unsafe a bottle-fed child is up to 25 times more likely to die as a result of diarrhoea than a breastfed child.**
- **Nestlé is responsible for more violations of the marketing requirements for breastmilk substitutes than any other company.**
- **Don't let them get away with it - Boycott Nescafé!**

We, the undersigned, pledge not to buy Nescafé until Nestlé abides by the letter and spirit of the *International Code of Marketing of Breastmilk Substitutes* and subsequent, relevant Resolutions of the World Health Assembly.
