**COMMISSION REGULATION (EU) .../...**  
**authorising certain health claims made on foods and referring to children's development and health**

**Permitted health claim**

<b>Application – Relevant provisions of Regulation (EC) No 1924/2006</b>	<b>Applicant – Address</b>	<b>Nutrient, substance, food or food category</b>	<b>Claim</b>	<b>Conditions of use of the claim</b>	<b>Conditions and/or restrictions of use of the food and/or additional statement or warning</b>	<b>EFSA opinion reference</b>
Article 14(1)(b) health claim referring to children's development and health	Specialised Nutrition Europe (formerly IDACE), 9-31 Avenue des Nerviens, 1040 Brussels, Belgium	Thiamine	<p>Thiamine contributes to normal carbohydrate and energy-yielding metabolism.</p> <p><i>If the addition of thiamine is mandatory for the category of the food for which the claim is made, the wording to be used shall be the following:</i></p> <p>All [category of foods] contain thiamine. Thiamine contributes to normal carbohydrate and energy-yielding metabolism.</p>	<p>The claim may be used only for the [food categories] listed below which have a thiamine content in accordance with the compositional criteria for:</p> <ul style="list-style-type: none"> <li>• follow-on formulae as laid down in Directive 2006/141/EC; or</li> <li>• nutritionally complete foods for special medical purposes intended for use by infants and nutritionally complete foods for special medical purposes other than those intended for use by infants as laid down in Directive</li> </ul>		Q-2008-183

				<p>1999/21/EC; or</p> <ul style="list-style-type: none"> <li>processed cereal-based foods for infants and young children as laid down in Directive 2006/125/EC.</li> </ul> <p>For foods intended for infants and young children, other than those listed above, the claim may be used only for food which provides at least a thiamine content of 15% of the reference values for nutrition labelling for foods intended for infants and young children as laid down in or Directive 2006/141/EC.</p> <p>[For other foods targeting children, but not specifically infants and young children, the claim may be used only for food which is at least a source of thiamine as referred to in the claim SOURCE OF [NAME OF VITAMIN/S] AND/OR [NAME OF MINERAL/S] as listed in the Annex to Regulation (EC) No 1924/2006.]</p>		
Article 14(1)(b) health claim referring to children's development and health	<p>HiPP GmbH &amp; Co. Vertrieb KG</p> <p>Georg-Hipp-Straße 7,85276 Pfaffenhofen GERMANY</p>	Thiamine	<p>Thiamine contributes to the maintenance of normal neurological development and function.</p> <p><i>If the addition of thiamine is mandatory for the category of the food for which the claim is made, the wording to be used shall be the following:</i></p> <p>All [category of foods] contain thiamine. Thiamin contributes to the maintenance of normal neurological development and function.</p>	<p>The claim may be used only for the [food categories] listed below which have a thiamine content in accordance with the compositional criteria for:</p> <ul style="list-style-type: none"> <li>follow-on formulae as laid down in Directive 2006/141/EC; or</li> <li>nutritionally complete foods for special medical purposes intended for use by infants and nutritionally complete foods for special medical purposes other than those intended for use by infants as laid down in Directive 1999/21/EC; or</li> </ul>		Q-2009-00455

				<ul style="list-style-type: none"> <li>processed cereal-based foods for infants and young children as laid down in Directive 2006/125/EC.</li> </ul> <p>For foods intended for infants and young children, other than those listed above, the claim may be used only for food which provides at least a thiamine content of 15% of the reference values for nutrition labelling for foods intended for infants and young children as laid down in or Directive 2006/141/EC.</p> <p>[For other foods targeting children, but not specifically infants and young children, the claim may be used only for food which is at least a source of thiamine as referred to in the claim SOURCE OF [NAME OF VITAMIN/S] AND/OR [NAME OF MINERAL/S] as listed in the Annex to Regulation (EC) No 1924/2006.]</p>		
Article 14(1)(b) health claim referring to children's development and health	HiPP GmbH & Co. Vertrieb KG Georg-Hipp-Straße 7,85276 Pfaffenhofen GERMANY	Alpha-linolenic acid	Alpha-linolenic acid contributes to brain and nerve tissue development. <i>If the addition of alpha-linolenic acid is mandatory for the category of the food for which the claim is made, the wording to be used shall be the following:</i>  All [category of foods] contain alpha-linolenic acid. Alpha-linolenic acid contributes to brain and nerve tissue development.	The claim may be used only for the [food categories] listed below which have alpha-linolenic acid content in accordance with the compositional criteria for: <ul style="list-style-type: none"> <li>follow-on formulae as laid down in Directive 2006/141/EC;</li> </ul> <p>For foods intended for infants and young children, other than those listed above, the claim may be used only for food which provides a minimum of 15% of the adequate intake of 0.5 E%.</p>		Q-2009-00197
Article 14(1)(b) health claim referring to	Specialised Nutrition Europe (formerly IDACE), 9-31	Magnesium	Magnesium contributes to normal development of bone.	The claim may be used only for the [food categories] listed below which have a magnesium content in accordance with the		Q-2008-150

children's development and health	Avenue des Nerviens, 1040 Brussels, Belgium		<p><i>If the addition of magnesium is mandatory for the category of the food for which the claim is made, the wording to be used shall be the following:</i></p> <p>All [category of foods] contain magnesium. Magnesium contributes to normal development of bone.</p>	<p>compositional criteria for:</p> <ul style="list-style-type: none"> <li>• follow-on formulae as laid down in Directive 2006/141/EC; or</li> <li>• nutritionally complete foods for special medical purposes intended for use by infants and nutritionally complete foods for special medical purposes other than those intended for use by infants as laid down in Directive 1999/21/EC; or</li> <li>• processed cereal-based foods for infants and young children as laid down in Directive 2006/125/EC.</li> </ul> <p>For foods intended for infants and young children, other than those listed above, the claim may be used only for food which provides at least a magnesium content of 15% of the reference values for nutrition labelling for foods intended for infants and young children as laid down in or Directive 2006/141/EC.</p> <p>[For other foods targeting children, but not specifically infants and young children, the claim may be used only for food which is at least a source of magnesium as referred to in the claim SOURCE OF [NAME OF VITAMIN/S] AND/OR [NAME OF MINERAL/S] as listed in the Annex to Regulation (EC) No 1924/2006.]</p>		
Article 14(1)(b) health claim referring to children's development and	Specialised Nutrition Europe (formerly IDACE), 9-31 Avenue des Nerviens, 1040	Vitamin A	<p>Vitamin A contributes to the normal function of the immune system.</p> <p><i>If the addition of vitamin A is</i></p>	<p>The claim may be used only for the [food categories] listed below which have a vitamin A content in accordance with the compositional criteria for:</p>		Q-2008-160

health	Brussels, Belgium		<p><i>mandatory for the category of the food for which the claim is made, the wording to be used shall be the following:</i></p> <p>All [category of foods] contain vitamin A. Vitamin A contributes to the normal function of the immune system.</p>	<ul style="list-style-type: none"> <li>• follow-on formulae as laid down in Directive 2006/141/EC; or</li> <li>• nutritionally complete foods for special medical purposes intended for use by infants and nutritionally complete foods for special medical purposes other than those intended for use by infants as laid down in Directive 1999/21/EC; or</li> <li>• processed cereal-based foods for infants and young children as laid down in Directive 2006/125/EC.</li> </ul> <p>For foods intended for infants and young children, other than those listed above, the claim may be used only for food which provides at least a vitamin A content of 15% of the reference values for nutrition labelling for foods intended for infants and young children as laid down in or Directive 2006/141/EC.</p>		
Article 14(1)(b) health claim referring to children's development and health	Specialised Nutrition Europe (formerly IDACE), 9-31 Avenue des Nerviens, 1040 Brussels, Belgium	Iron	<p>Iron contributes to normal cognitive development.</p> <p><i>If the addition of iron is mandatory for the category of the food for which the claim is made, the wording to be used shall be the following:</i></p> <p>All [category of foods] contain iron. Iron contributes to normal cognitive development.</p>	<p>The claim may be used only for the [food categories] listed below which have an iron content in accordance with the compositional criteria for:</p> <ul style="list-style-type: none"> <li>• follow-on formulae as laid down in Directive 2006/141/EC; or</li> <li>• nutritionally complete foods for special medical purposes intended for use by infants and nutritionally complete foods for special medical purposes other than those intended for use by infants as laid down in Directive 1999/21/EC; or</li> </ul>		Q-2008-199

				<ul style="list-style-type: none"> <li>processed cereal-based foods for infants and young children as laid down in Directive 2006/125/EC.</li> </ul> <p>For foods intended for infants and young children, other than those listed above, the claim may be used only for food which provides at least an iron content of 15% of the reference values for nutrition labelling for foods intended for infants and young children as laid down in or Directive 2006/141/EC.</p>	
Article 14(1)(b) health claim referring to children's development and health	Specialised Nutrition Europe (formerly IDACE), 9-31 Avenue des Nerviens, 1040 Brussels, Belgium	Riboflavin (vitamin B2)	<p>Riboflavin contributes to normal energy-yielding metabolism.</p> <p><i>If the addition of riboflavin is mandatory for the category of the food for which the claim is made, the wording to be used shall be the following:</i></p> <p>All [category of foods] contain riboflavin. Riboflavin contributes to normal energy-yielding metabolism.</p>	<p>The claim may be used only for the [food categories] listed below which have a riboflavin content in accordance with the compositional criteria for:</p> <ul style="list-style-type: none"> <li>follow-on formulae as laid down in Directive 2006/141/EC; or</li> <li>nutritionally complete foods for special medical purposes intended for use by infants and nutritionally complete foods for special medical purposes other than those intended for use by infants as laid down in Directive 1999/21/EC; or</li> <li>processed cereal-based foods for infants and young children as laid down in Directive 2006/125/EC.</li> </ul> <p>For foods intended for infants and young children, other than those listed above, the claim may be used only for food which provides at least a riboflavin content of 15% of the reference values for nutrition labelling for foods intended for infants and young children as laid down in or Directive</p>	Q-2008-184

				2006/141/EC. [For other foods targeting children, but not specifically infants and young children, the claim may be used only for food which is at least a source of riboflavin as referred to in the claim SOURCE OF [NAME OF VITAMIN/S] AND/OR [NAME OF MINERAL/S] as listed in the Annex to Regulation (EC) No 1924/2006.]	
Article 14(1)(b) health claim referring to children's development and health	Specialised Nutrition Europe (formerly IDACE), 9-31 Avenue des Nerviens, 1040 Brussels, Belgium	Pantothenic acid	Pantothenic acid contributes to normal energy-yielding metabolism.  <i>If the addition of pantothenic acid is mandatory for the category of the food for which the claim is made, the wording to be used shall be the following:</i>  All [category of foods] contain pantothenic acid. Pantothenic acid contributes to normal energy-yielding metabolism.	The claim may be used only for the [food categories] listed below which have a pantothenic acid content in accordance with the compositional criteria for: <ul style="list-style-type: none"> <li>• follow-on formulae as laid down in Directive 2006/141/EC; or</li> <li>• nutritionally complete foods for special medical purposes intended for use by infants and nutritionally complete foods for special medical purposes other than those intended for use by infants as laid down in Directive 1999/21/EC; or</li> <li>• processed cereal-based foods for infants and young children as laid down in Directive 2006/125/EC.</li> </ul> For foods intended for infants and young children, other than those listed above, the claim may be used only for food which provides at least a pantothenic acid content of 15% of the reference values for nutrition labelling for foods intended for infants and young children as laid down in or Directive 2006/141/EC.	Q-2008-186

				[For other foods targeting children, but not specifically infants and young children, the claim may be used only for food which is at least a source of pantothenic acid as referred to in the claim SOURCE OF [NAME OF VITAMIN/S] AND/OR [NAME OF MINERAL/S] as listed in the Annex to Regulation (EC) No 1924/2006.]	
Article 14(1)(b) health claim referring to children's development and health	Specialised Nutrition Europe (formerly IDACE), 9-31 Avenue des Nerviens, 1040 Brussels, Belgium	Vitamin C	<p>Vitamin C contributes to increasing non-haem iron absorption.</p> <p><i>If the addition of vitamin C is mandatory for the category of the food for which the claim is made, the wording to be used shall be the following:</i></p> <p>All [category of foods] contain vitamin C. Vitamin C contributes to increasing non-haem iron absorption.</p>	<p>The claim may be used only for the [food categories] listed below which have a vitamin C content in accordance with the compositional criteria for:</p> <ul style="list-style-type: none"> <li>• follow-on formulae as laid down in Directive 2006/141/EC; or</li> <li>• nutritionally complete foods for special medical purposes intended for use by infants and nutritionally complete foods for special medical purposes other than those intended for use by infants as laid down in Directive 1999/21/EC; or</li> <li>• processed cereal-based foods for infants and young children as laid down in Directive 2006/125/EC.</li> </ul> <p>For foods intended for infants and young children, other than those listed above, the claim may be used only for food which provides at least a vitamin C content of 15% of the reference values for nutrition labelling for foods intended for infants and young children as laid down in or Directive 2006/141/EC.</p> <p>[For other foods targeting children, but not specifically infants and young children, the</p>	Q-2008-176

				claim may be used only for food which is at least a source of vitamin C as referred to in the claim SOURCE OF [NAME OF VITAMIN/S] AND/OR [NAME OF MINERAL/S] as listed in the Annex to Regulation (EC) No 1924/2006.]	
Article 14(1)(b) health claim referring to children's development and health	Specialised Nutrition Europe (formerly IDACE), 9-31 Avenue des Nerviens, 1040 Brussels, Belgium	Iron	<p>Iron contributes to normal formation of haemoglobin and red blood cells.</p> <p><i>If the addition of iron is mandatory for the category of the food for which the claim is made, the wording to be used shall be the following:</i></p> <p>All [category of foods] contain iron. Iron contributes to normal formation of haemoglobin and red blood cells</p>	<p>The claim may be used only for the [food categories] listed below which have an iron content in accordance with the compositional criteria for:</p> <ul style="list-style-type: none"> <li>• follow-on formulae as laid down in Directive 2006/141/EC; or</li> <li>• nutritionally complete foods for special medical purposes intended for use by infants and nutritionally complete foods for special medical purposes other than those intended for use by infants as laid down in Directive 1999/21/EC; or</li> <li>• processed cereal-based foods for infants and young children as laid down in Directive 2006/125/EC.</li> </ul> <p>For foods intended for infants and young children, other than those listed above, the claim may be used only for food which provides at least an iron content of 15% of the reference values for nutrition labelling for foods intended for infants and young children as laid down in or Directive 2006/141/EC.</p> <p>[For other foods targeting children, but not specifically infants and young children, the claim may be used only for food which is at least a source of iron as referred to in the</p>	Q-2008-147
